Adish Patni

2025

Adish Patni is an acclaimed architect and interior designer in Bangalore, leading his boutique practice under the name Atelier Adish Patni, celebrated for his innovative approach that harmoniously blends international aesthetics with Indian sensibilities. Recognized globally, Adish was named among the World's Top 100 Young Architects by Archiprix Netherlands and has been featured in India's Top 50 Architects by iGen. Adish has collaborated with architectural luminaries such as the late BV Doshi in Ahmedabad, Sir Peter Cook in London, and Sir Glenn Murcutt in Australia.

His portfolio displays an impressive array of projects like the Art House, Pavilion House, and Villa One, which have garnered attention in esteemed publications such as Elle Decor and Architectural Digest. Through his firm, Atelier Adish Patni, he continues to craft spaces that seamlessly integrate art, architecture, and the poetics of space.

Working presently in 11+ cities in India and in Dubai, Adish approaches each project as a discovery process, rooted in design thinking. From empathy to ideation and prototyping, his studio engages deeply with clients to understand not just their needs but their aspirations. The essence of his work is captured best when he knows his patrons are at the same wavelength, and are willing to live in a home than a well-designed house.
